GAMEOFFICALS.NET – Using the System

After completing the form, the main page will be displayed. If there are any important announcements, they will be displayed on this page. From the menu on the left you can finish preparing yourself for assignments.

Availability

1. You will be able to enter dates/times that you are available to work games. **NOTE:** The system works with times that you ARE available; entering NOT is the same as entering nothing. In order to show up on the list of available officials, you need to have availability in the system. To set your availability, click on the My Availability from the side menu.

2. Click on a date using the calendar on the left and enter the time frame in the form on the right that you will be available on that day. **NOTE:** Keep this up-to-date as best you can. Enter the times that you are **really available** to work. Do not put ALL DAY, if you are not available all day. Games start early and end late. If you don't want to wake up early or stay out late to ref, reflect that in your entries. Assignors do not want to reassign games because a ref is not really available to work the game.
